3.1. Registration

All content on the Website is available to any Buyer without registration, but registration is required to enter or make a purchase.

To register, the Customer must click on "Register" at the top of the Website and then provide the requested information (the information marked with an asterisk is required).

At the end of registration, the Customer must accept both the Privacy Policy and these GTC.

The registration can be finalised by the Customer by clicking on the "Submit registration" button. The Service Provider will then send a confirmation to the e-mail address provided by the Customer.

Registration does not yet create an obligation to pay.

If the Service Provider has also defined separate terms and conditions for a given event, acceptance of these terms and conditions is also binding, and the separate terms and conditions and the GTC together constitute the contract between the parties.

3.2. Payment

The Customer can pay for his/her purchases by credit card or SZÉP card. Payment by credit card is made through the Simple Pay system, and when paying by SZÉP card, the Customer is redirected to the SZÉP card provider (OTP, MHB, K&H) and can pay there.

The prices shown on the Website are the prices valid at the time of ordering and registration, which are shown next to the services on the Website. The prices indicated on the Website are gross prices and VAT will not be charged on sales.

The Customer accepts that, based on the pricing policy of the Service Provider, the price of tickets for Events may increase as the Event date approaches.

The Service Provider shall not be liable for any apparent misstatement of the price despite its due diligence and/or due to an error in the IT system.

In particular, it is considered to be a manifestly incorrectly indicated price:

- 0 HUF price (if it is not a discount indicated in advance)
- a price reduced by the discount but incorrectly indicating the discount (e.g. a service offered for HUF 500 for a HUF 1000 service with a 20% discount).

In case of incorrect price indication, the Service Provider offers the possibility to purchase the service at the real price, in the knowledge of which the Customer may decide whether to order the service at the real price or to cancel the order without any adverse legal consequences.

3.3. Shipping

Our delivery methods are:

- **Free** personal collection at the race centre
- Personal delivery to courier shops: **free of charge**
- Posting by mail:
 - o **free of charge** if postage is included in the entry fee;
- if the entry fee does not include postage: **from HUF 500**;
- For Sprinter courier service: **from HUF 1.000**.

Different products may have different delivery methods, but the Service Provider's system will offer a maximum of one delivery method at checkout.

For an order for a given event, the system selects the most expensive of the different delivery methods for the different products once (Example: if the delivery cost of one product is 500 HUF and the delivery cost of the other product is 1.000 HUF, the delivery cost for the whole order is 1.000 HUF.)

If the order is placed at the same time for different events in the same basket (e.g. Vivicitta April, Marathon October), the above discount does not apply, because the ordered product will be delivered at a different time and will be charged separately, which will be shown as a separate item. The same applies to the purchase of non-event related products and event related products at the same time.

3.4. Coupons

Coupons are discounts that can be used during the purchase process and are created by the Service Provider.

The confirmation e-mail from the Service Provider constitutes acceptance of the offer made by the Customer, which creates a valid contract between the Service Provider and the Customer.

If the Customer has already sent his/her order to the Service Provider and notices an error in the data contained in the confirmation e-mail, he/she must notify the Service Provider within 1 day in order to avoid the execution of unwanted orders.

The Customer may exercise his/her enforcement rights in accordance with these GTC.

As it is not possible to submit an entry, if a Participant has entered an Event but is unable to participate, he/she may withdraw from the Event, which can be found in the "Withdrawal" section.

6.1. Change your distance online

If a Participant has submitted an entry for an Event but wishes to change the distance to be covered, they can do so online as follows:

- the Participant must withdraw from the original distance;

The conditions to benefit from the discount are:

8. Customer rights

Events are only open to participation by the Customer and, if the Customer and the person participating in the Event are not the same, by the person present at the event, after payment of the entry fee.

The Customer and the person present at the event are hereinafter collectively referred to as the "Participant".

Payment of the entry fee entitles the Entrant to the items specified in the "Entry Fee Content" section of the Event Information for the relevant event.

Only Participants who accept the conditions set out in the Competition Notice may compete in the Events, after registration and payment of the entry fee.

9. Rules of Procedure at the Event

Unless the Service Provider sets out specific terms and conditions for the Event, the following policy applies to the Event.

Due to the specificities of the route and the increased risk of accidents, wheelchair and handbike Participants may only enter the Events by pre-nomination and may only complete the Events with an assistant.

For Participants using a wheelchair or handbike:

- if they complete the distance on their own, they can start from the front of the field. They will start 1 minute before the peloton, with a motorbike lead. A motorbike guide will accompany these Participants and they will be allowed to leave the field only when approaching the finish. The exact location of the overtake must be agreed with the course staff,
- if they are assisted, they can start from the start zone corresponding to their planned pace.

Anyone who folds, covers or does not wear their number badge visibly during the Event will be given a 10 minute time penalty.

Entry to the finish area is only possible with a number. The Service Provider will check that the number is worn (visible from the front!) when entering the Event. It is recommended that you affix your number using the safety pins provided in the start pack or at the entry desks.

A Participant may be disqualified if, despite repeated warnings, he/she fails to wear a number, fails to complete the entire distance of the Event as designated by the organisers, or fails to fill in the entry form accurately, with incorrect data or incompletely.

The Service Provider does not recommend listening to or using any music or other player that muffles outside noise while running with both ears plugged in at the same time, for the following reasons:

- the Events are staffed by cycling and motorbike organisers and, if necessary, ambulances,
- the earphones suppress external noise, so that the person using the earphones can interfere with the previous runners and the organisers or medical team doing their job.

Participants can use the medical tent at the designated finish area on the day of the Event in case of a complaint before the start.

If anyone in the peloton becomes unwell on the route, they must tell the nearest mileage sign or report to the refreshment station where the unwell person occurred.

On the back of each number plate is an SOS medical number. It is recommended to fill in the medical section on the back before departure.

If the Participant is running under the influence of medication or with any medical condition, it is recommended that this is indicated on the back of the number plate.

The Service Provider reserves the right to change the itinerary, programme and time if there is an external, unavoidable reason that cannot be dealt with without changing the originally advertised programme.

9.1. On doping

The Entrant prepares for the Competition with clean equipment. He/she will not use any substances on the WADA doping list in force and will provide a sample for the inspectors after the Event, if requested. Refusal to do so may result in disqualification from the Event and cancellation of results.

9.2. In the event of a fault in the timing system

In the event of a malfunction of the timing system, the Organiser will not be able to give all Participants time credit and will be forced to keep the results without time credit, which will be accepted by the competitors.

9.3. About level crossings

The Participant shall follow the instructions of the staff directing traffic at level crossings. In the case of a red signal, crossing is prohibited and life-threatening, and any Participant who fails to comply may be immediately excluded.

9.4. Traffic management

The Participant acknowledges that the route of the Event (as indicated in advance by the Service Provider) may cross roads that are not closed to traffic at several points, at which the passage is at the Participant's own risk. At these points, the traffic regulations laid down in the Highway Code shall apply. At most of these points, the Service Provider will assign marshals and insurance companies to warn the Participants of the priority of vehicles and to hold them up until the traffic has stopped and then let them pass.

The marshals (except uniformed police officers) have no authority to stop vehicles or intervene in traffic, they may only stop the Participant. For the safety of the Event and the Participants, please obey the rules, which are mandatory anyway! The event marshals at the respective points are doing their job to assist you and guarantee your safety.

The Event Organiser is not responsible for the consequences of the Participant's disregard of the traffic rules in force at the given point, the signals of the marshal or the traffic police.

9.5. Cyclist rider, accompanying

Littering on the route is not allowed and will result in immediate disqualification.

9.7. About the changes

The Participant agrees that the Organiser will provide the teams with the opportunity to change at the designated changeover points, where the timing will take place.

9.8. Run with pram

You may run with a baby carriage only at your own risk and without harming the physical safety of other Participants on the Events where this is not prohibited due to the quality or width of the road. The Organiser accepts no responsibility for any accidents resulting from this.

9.9. On marketing and advertising

Any advertising and marketing activities in the entire Event venue and on the route may only be carried out with the prior written permission of the Service Provider!

9.10. About the medical intervention

The Participant agrees that if the medical staff deems his/her condition during the Competition, he/she may not continue in the Competition. In the case of teams, the team may continue the Competition without the Participant declared unfit.

9.11. Number of entries and closing of entries

The Organiser reserves the right to limit the number of Entrants (may set an entry limit). You may close your entry at any time, cancel it in case of technical failure and reopen it.

9.12. About values

The Organiser cannot be held responsible for valuables left in the accompanying cars and accommodation.

9.13. On the link between credits and results

In the event of a close finish, due to time credits at level crossings, it is possible that the Participant who finishes first may not win the Race, despite a joint start. The same rule applies to the team results due to the start in the other blocks.

This means that after a Participant has finished, his/her position may be changed.

9.14. On the use of drones

Drones may only be operated during the Event with the written permission of the Organiser, subject to the laws governing drones.

9.15. About smoking

The spirit of the Events is not compatible with smoking during sport, and therefore smoking is strictly FORBIDDEN on the race course and in the finish area to protect non-smokers.

A Participant who, despite the prohibition, is caught smoking in the Race area, refreshment point, relay point or start/finish area during the Race may be disqualified from the Race by the Organiser.

In the case of a team event, the penalty applies only to the athlete who broke the rule, the team may continue the event regardless.

9.16. Insurance

The Participant acknowledges that the entry fee does NOT include insurance.

9.17. Participant status

An individual Participant can be a member of a team at the same time. When changing, he/she must run to the changeover point and can only change there, even if this means an increase in his/her individual running time.

An individual competitor can be a member of up to 2 teams and must pay the entry fee for both teams.

15. The Customer's rights of withdrawal and warranty

15.1. Right of termination for registration and related services

In the case of services sold on the Website, all Customers are entitled to a warranty for accessories.

In connection with the registration and related services, the Customer who is a consumer shall not have the right to terminate the contract pursuant to Section 29 (1) I) of Article 29 of Government Decree 45/2014.

Under the legislation referred to, there is no possibility of termination of a contract for a service related to leisure activities if the contract has a fixed deadline or period for performance.

15.2. Right to withdraw from a product

In the case of products, if the Customer has requested individual labelling, the Customer, who is a consumer, has no right of termination pursuant to Article 29 (1) (c) of Government Decree 45/2014, i.e. there is no right of termination under the said legislation in the case of a product that is not prefabricated, which has been produced on the basis of the instructions or at the express request of the consumer, or in the case of a product that is clearly tailored to the consumer.

In the case of non-individual products, pursuant to Government Decree 45/2014 (26.II.26.) on the detailed rules of contracts between consumers and businesses, the Consumer may exercise his/her right of termination (withdrawal) within fourteen days of the date of conclusion of the contract.

The Customer shall send a clear statement of his/her intention to terminate the contract to one of the contact details of the Service Provider indicated in point 1.

The Customer may exercise his/her right of termination within the time limit if he/she sends his/her declaration to the Service Provider before the expiry of the time limit indicated above.

The burden of proving that the Customer has exercised his/her right of termination in accordance with the provisions set out in this clause shall be on the Customer.

The Service Provider will immediately acknowledge receipt of the Customer's notice of termination by e-mail.

In the case of a written withdrawal, it shall be deemed to have been validated in time if the Customer sends the Service Provider a statement to this effect within 14 calendar days (up to the 14th calendar day).

In the case of notification by post, the Service Provider shall take into account the date of posting, in the case of notification by e-mail, the date of sending the e-mail for the purpose of calculating the time limit. The Customer must post the letter by registered mail so that the date of dispatch can be verifiably proven.

In the refund, the Service Provider shall use the same payment method as the one used in the original transaction, unless the Consumer explicitly agrees to use another payment method, and the Consumer shall not incur any additional costs as a result of using this refund method.

In case of cancellation, the product must be returned to the Service Provider. This can be done within 14 days from the date of the notice of withdrawal. The product does not have to arrive within this period, but the parcel must be "sent on its way".

The buyer is responsible for the cost of returning the goods.

The product must be delivered to the address : **BSI SPORT Kft 1138 Budapest Váci út 152-158..**

15.3. Withdrawal, cancellation and penalty

A: In case of withdrawal from or cancellation of an Event, if the Customer notifies his/her intention to withdraw or cancel before the 6th week prior to the Event, the Service Provider will credit the Customer's balance with the entry fee paid after deducting HUF 1000 handling fee.

If the Customer notifies his/her intention to withdraw from or cancel an Event within six weeks prior to the Event, but no later than midnight on Wednesday of the week of the Event, 20% of the entry fee paid will be deducted as a handling fee and the remaining amount will be credited to the Customer's balance by the Service Provider. In case of withdrawal of a team, the amount corresponding to the deadline will be deducted from each team member and the credit will be returned to the person who paid the team. The amount credited can be used until the end of the year following the cancellation. The credited balance is not redeemable for cash and is not subject to refund.

Unused balances will be deleted after the expiry date.

Our virtual and instant events do not allow withdrawals, so the general withdrawal policy does not apply.

B: In the case of an order for accommodation or a shuttle bus, if the Service Provider fails to provide the accommodation or shuttle service for reasons not in the Customer's interest (in particular, if the Customer fails to pay the accommodation or shuttle service fee on time or if the Customer fails to provide the Service Provider with the data required for the order), the Customer may request a substitute (part) service of equal or higher value, or claim a refund of the fee paid, or the right to compensation for the damage incurred.

In the case of a contract for accommodation, shuttle bus and bicycle transfer, the Customer has the right to withdraw from the contract already concluded at any time, but in the cases specified in this contract the Customer must pay a penalty. The withdrawal must be notified to the Service Provider in writing, by e-mail or by post.

Accommodation and transfer cancellation deadlines and associated penalties are always available on the Event Information page of the relevant event on the Service Provider's website, as the terms and conditions of each event may differ.

In case of no-show without cancellation (withdrawal), the amount already paid by the Customer will not be refunded.

Special withdrawal rules at the Spuri Balaton Super Marathon

For the above mentioned event, the Service Provider shall establish a specific rule different from clause 15.3 of the GTC. These conditions will be displayed by the Service Provider on its website in the event information section and will be applied to the event.

15.4 Withdrawal in case of entry with a voucher

If a coupon is used in the entry process and the Entrant withdraws from the entry under such a scheme under the stated rules, the credit will only apply to the amount paid and not to the coupon discount.

15.5 Procedure to be followed in the event of a grace period

The Entrant's original entry(s) will be valid for the make-up date(s). If the established make-up date does not suit the Participant, the General Withdrawal Conditions apply as follows:

- If the Participant notifies his/her withdrawal until the 6th week before the event, the fee will be credited to the "Balance Coupon" after deduction of 1000 HUF.
- If a Participant withdraws within the 6th week before the event, but no later than midnight on Wednesday of the week of the event, 20% of the entry fee paid will be deducted, the remainder will be credited to the "Balance Coupon".
- After midnight on Wednesday of the week of the event, no cancellations will be accepted.

In both cases, the amount credited can be used as an entry fee for the Events organised by the Service Provider until 31 December of the year following the cancellation.

In the event of a team withdrawal, each team member will be deducted the amount corresponding to the deadline and the credit will be returned to the person who paid the team.

Entry fees of 1000 HUF or less will be fully credited for entries received up to 6 weeks before the event.

15.6 Procedure to be followed in the event of a non-event

The Participant acknowledges that if the Event is not held on the make-up date or any other date and the Organiser announces the cancellation of the Event, the following procedure will apply:

- 100% of the entry fee paid will be credited to the "Balance Coupon", which can be used as an entry fee for Events organised by the Service Provider until 31 December of the year following the Event.

15.7 Storm Weather Procedure

In the event of stormy weather, the Organiser may suspend the Event temporarily or permanently at any time and then restart it. In the case of a suspended Event, no rescheduling will be made.

In the event of stormy weather, if the Event has to be permanently suspended, the Participant will not be entitled to a refund of the entry fee.

15. 8Warranty

In the event of defective performance by the Service Provider (defective performance in particular if the service/product/ticket suffers from a qualitative or quantitative defect), the Customer may assert a claim for warranty against the Service Provider. In the case of a consumer contract, the Customer may, during a limitation period of 2 years from the date of receipt, assert a warranty claim for defects in the service/product/ticket which already existed at the time of delivery of the service. After the two-year limitation period, the Customer may no longer enforce his/her warranty rights.

In the case of a contract concluded with a non-consumer, the rightful claimant may enforce his/her warranty claims within a limitation period of 1 year from the date of receipt.

The Customer may, at his/her option, request repair or replacement, unless the fulfilment of the request chosen by the Customer is impossible or would involve disproportionate additional costs for the Service Provider compared to the fulfilment of his/her other request. If the repair or replacement was not requested or could not be requested by the Customer, the Customer may request a proportionate reduction of the consideration or the Customer may have the defect repaired or replaced by another party at the expense of the Service Provider or, as a last resort, may withdraw from the contract.

No withdrawal due to a minor defect.

The Customer may switch from one warranty right to another, but must bear the cost of the switch, unless it was justified or the Service Provider gave a reason for it.

The Customer is obliged to notify the Service Provider of the defect immediately after its discovery, but not later than within two months of the discovery of the defect.

The Customer may assert a warranty claim directly against the Service Provider.

Within six months from the date of performance of the contract, no other condition for the assertion of a claim for warranty other than the notification of the defect shall apply if the Participant proves that he/she purchased the service/product/ticket from the Service Provider (by presenting an invoice or a copy of the invoice). In such a case, the Service Provider shall be exempted from warranty only if he/she rebuts this presumption, i.e. proves that the defect in the service/product/ticket occurred after delivery to the Participant. If the Service Provider can prove that the cause of the defect was due to a cause attributable to the Participant, the Service Provider is not obliged to accept the Participant's warranty claim. However, after six months from the date of performance, the Participant shall be obliged to prove that the defect discovered by the Participant existed at the time of performance.

If the Participant asserts a warranty claim for the part of the service/product/ticket that can be separated from the service/product/ticket in respect of the defect indicated, the warranty claim shall not be deemed to be asserted for the other parts of the service/product/ticket.

15. 9Product warranty

In the event of a defect in the product (movable good), the consumer can, at his/her option, claim under the product warranty. The product warranty differs from an accessory warranty in that it can be enforced against the manufacturer through the distributor.

However, as a product warranty claim, the Customer may only request the repair or replacement of the defective product. In the event of a product warranty claim, the Customer must prove that the product is defective.

A product is considered to be defective if it does not meet the quality requirements in force when it was placed on the market or if it does not have the characteristics described by the manufacturer.

The Customer may assert a product warranty claim within two years of the product being placed on the market by the manufacturer. After this period has expired, the Customer loses this right. The Customer must notify the manufacturer of the defect without delay after discovering it. A defect notified within two months of the discovery of the defect shall be deemed to have been notified without delay. The consumer shall be liable for any damage resulting from the delay in notification.

The Customer may exercise his/her product warranty claim against the manufacturer or distributor (Service Provider) of the movable item.

The manufacturer or distributor (Service Provider) is only exempted from its product warranty obligation if it can prove that:

- manufactured or marketed the product for purposes other than its business, or
- the defect was not detectable according to the state of science and technology at the time it was placed on the market, or
- the defect in the product results from the application of a legal or regulatory requirement.

The manufacturer or distributor only needs to prove one ground for exemption.

16. Enforcement options

16.1. Where, when and how to lodge a complaint

Participants may exercise their objections to the Service or the Service Provider's activities through the contact details indicated in point 1.

The Service Provider shall, where it has the opportunity, remedy the oral complaint immediately. If it is not possible to remedy the oral complaint immediately, due to the nature of the complaint, or if the Participant does not agree with the handling of the complaint, the Service Provider shall record the complaint and send a substantive response within 30 days.

The Service Provider will respond to your written complaint within 30 days. For the purposes of this contract, action means replying to an electronic mail address or sending a postal letter.

If the complaint is rejected, the Service Provider shall inform the Participant of the reasons for the rejection.

16.2. Other enforcement options

In the event that any dispute between the Service Provider and the Participant is not resolved in negotiations with the Service Provider, the Participant shall be entitled to:

VIRTUAL EVENT ADDITIONAL CONDITIONS

This document contains the special entry conditions for the virtual running event announced by BSI Sport Ltd. as the service provider (hereinafter referred to as the "Service Provider") via the futanet.hu website (hereinafter referred to as the "Website"). These Terms and Conditions of Entry supplement the Service Provider's GTC and together with them constitute the contract between the parties. The terms defined in this contract shall have the meaning given to them in the Service Provider's GTC.

1. Completing the virtual race

- 1.1 The distance can be completed by the Customer anywhere, there is no location restriction on the part of the Service Provider. The Customer can complete the distance at any time between the start and end times specified by the Service Provider, regardless of the day and time of day. The confirmation of the completion and the completion time must be uploaded by the Customer on the results submission interface available on the Website after the completion, which can be done by: - providing a public training link (e.g. Strava, Endomondo), - uploading a photo with the completion details (distance and time).
- 1.2 The photo can be taken, for example, from the display of the Customer's phone, the data of the training application, the watch face of the smartwatch, the display of the treadmill. The important thing is that it clearly shows the distance and time completed. The provider will not publish the training link or the photo, it is only necessary for verification purposes.
- 1.3 For the Family Team event, only one time and certificate per team needs to be uploaded. Based on the uploaded results, the Service Provider will create a results list from which the Customer can download or share their certificate of completion via Facebook. After the virtual running event, the Service Provider will mail the gift chosen at the time of registration to the Customer. The Service Provider may also donate part of the entry fee to charity.

2. Liability of the service provider

As part of the virtual running event service, the Service Provider is responsible for:

- ensure the availability of the Website,
- make available through the Website services with the best professional content available,
- mail to the Customers the prize selected when they entered the virtual race, - publish the results list.

The Service Provider accepts no liability:

- due to the failure of the Customer to attend an event,
- for the Customer's medical condition and any changes in it,
- for the data uploaded by the Customer,
- for the improper operation of the internet browser used by the Customer,
- the Customer is unable to access the Website due to an error on the part of their internet service provider,
- the Customer is not using the Website for its intended purpose,
- to meet the Customer's prior expectations.

The Supplier does not provide the Customer with health insurance and medical supervision during the virtual running event.

3. Buyer's responsibility

By registering, the Customer acknowledges and accepts that he/she participates in the virtual running event solely at his/her own risk. By entering, the Customer declares that he/she is in good physical and health condition. In the event of damage (injury, compulsion to abandon performance,

etc.) or failure to participate in the event, the Customer shall not be entitled to any claims or demands against the Service Provider.

You will regularly check and verify your medical condition and declare that you are not aware of any medical condition that would prevent you from participating in the virtual running event. The Customer acknowledges that the Service Provider shall not be liable for any problems resulting from incomplete or inaccurate completion of the results page (e.g. incorrect or missing results, etc.).

You agree to the terms and conditions of entry and participation set out in the Service Provider's T&Cs and have read and understood the event information. You agree that you cannot withdraw from the virtual event, and therefore the options set out in the General Withdrawal Conditions do not apply.

The Customer accepts and complies with the current government regulations on curfew and measures relating to sporting events and sports training.

4. Other information

If the Customer has any questions about the event or its management, he/she can contact the Server at nevezes@futonet.hu.

Virtual races count towards the Spuri Gold Card program (except for those that are free to register for), and the Customer can also collect events and mileage here.

If the distance completed and certified is shorter than the distance chosen, the result will not appear in the results list.

If the distance covered is longer than the distance chosen, the Customer must provide the time taken to complete the entire run, not the part of the run corresponding to the distance chosen. If the Customer runs longer than the distance entered, please record the training in two stages or stop the watch/app for one photo. If you are running with a GPS device, please make sure that the satellite connection is active at the start and during the run.

There are no wheelchair and handbike categories in the races.

The distance is completed individually, the refreshment must also be done by the Customer, therefore the Service Provider recommends that the Customer has enough fluids and other energy substitutes. A mobile phone should be available at all times during the run so that assistance can be called in case of problems.

This is not a normal event organised by the Service Provider, there is no health insurance, no medical supervision, and the situations that arise during the run must be dealt with by the Customer alone.

The Customer is NOT RECOMMENDED to listen to or use any music or other player that muffles outside noise while running with both ears plugged in at the same time.

For organisational reasons, the Service Provider reserves the right to limit the number of participants and to close the registration at any time. The Service Provider reserves the right to change the date.

5. Virtual Run epidemiological information

During the duration of the emergency/emergency (if any), please comply with current and applicable government regulations regarding outdoor exercise, keeping your distance, wearing protective equipment. Please complete your chosen distance individually (unless otherwise specified by regulation)
